

Worksheet 14: Advanced Vocabulary in Context

Infer meaning, identify clues, and apply words precisely.

Part A: Context and Nuance

1. The plan was feasible because the team had enough time, equipment, and trained people. What does feasible mean, and which clues helped you?

2. The commander had to prioritize medical supplies before comfort items because the injury risk was higher than the inconvenience. What does prioritize mean?

3. The report was ambiguous; two readers interpreted the same sentence in different ways. What does ambiguous mean?

4. The team revised the route after receiving new information, showing flexibility rather than stubbornness. What does flexibility mean in this context?

5. The instructions were concise: short enough to remember but detailed enough to follow. What does concise mean?

Extra workspace / final response:

Part B: Precision Practice

6. Choose feasible or ambiguous: "The map symbol could mean either a trail or a boundary." Explain your choice.

7. Write one original sentence using prioritize in a school, sports, or work situation.

8. Write one original sentence using concise, then rewrite it to make it less concise.

9. Pick two vocabulary words from this worksheet and explain how confusing them could change the meaning of a message.

Extra workspace / final response:
